

MEMORANDUM FOR THE RECORD:

SUBJECT: CI Ops Crse for OSI/DAF

25X1A9a

25X1A9a

On 15 January 1963, I was informed by [REDACTED] that DDP/TRO had informed [REDACTED] that DDP had no objection to the projected training of OSI Officers, but that two caveats are outstanding:

- (1) This must be done without cancelling existing training.
- (2) Any additional expenses must be borne by USAF.

25X1A9a

25X1A9a

Note: At this point, the only bar to going ahead is the fact that Security considerations of the course, ie, clearance of OSI personnel, and place and manner in which the material will be given, and caveats concerning the nature of the material must be worked out between [REDACTED] (CI Staff) and [REDACTED] (OS). The last word on this, from [REDACTED] was that [REDACTED] had opened the matter with [REDACTED] who replied that this was very interesting and that he would have to think about it for a bit.

Memo.

25X1A9a

On 8 January 1963 I talked with the OTR Security Officer, telling him of the projected CI Course, and that the security precautions were being discussed between [REDACTED] but that among other things under discussion was the fact that OTR prefers to hold the course in the Broyhill building. The Security Officer indicated that his principal interest in this matter was whether or not we got adequate biographic information from OSI, etc, but that as this was being handled by OS and CI Staff, he would await their decisions.
